

Instrument requirements for JAC

Students have *one group music lesson* (on a keyboard) and *one individual piano lesson* (on a piano) per week.

A piano (acoustic or digital) is required at home for this course – new or second hand is fine so long as it has the requirements below; it will be a worthwhile investment. Now might be time to move some furniture!

Acoustic piano

- 88 keys
- Tuned regularly to concert pitch (A=440Hz)
- Working pedals (2 pedals are standard)
- Piano stool (one that is height adjustable is recommended). A dining chair at the right height is acceptable – not one that encourages sitting back

Digital (electric) piano

- 88 keys
- Full sized keys
- Weighted keys
- Sustain Pedal (can be plugged in)
- Piano stool (one that is height adjustable is recommended). A dining chair at the right height is acceptable – not one that encourages sitting back

JAC 6 parent:

“I just wanted to let you know that L*** is enjoying music so much again. He plays the piano all the time, improvises, experiments non stop... The new piano has been a real blessing, if I knew it, I wouldn't have waited so long. Thank you very much for sharing your love for music with him.”
